

Firth Primary School Covid Update Friday 11th March 2022

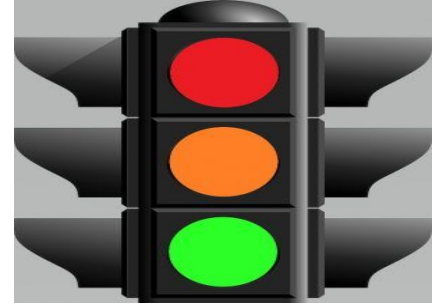

Please Note Changes To Isolation Time

This week our combined total has risen to 85 confirmed, positive cases at Firth Primary School, over the past 3 weeks. We are still receiving daily positive cases however these are certainly becoming less. All classes across our school either have a positive case or have household contacts to a case. Please keep your child home and get a test if they are unwell. If your child returns a positive test we need you to send a screenshot of the results on either email or txt contact, covid_response@firth.school.nz or **txt 0211157874**. This information needs to be collated by the ministry and we need to track the change to the isolation period which is now 7 days as of midnight tonight. To help us, please DO NOT ring the office for covid related questions and queries and to advise of results as we have specific places to record these.
