

# Firth Primary School Update Health Notice Public Holiday

## Reminder

We are saddened by the passing of Queen Elizabeth II. The Prime minister has announced NZ will have a one-off Public holiday on **Monday September 26th** as a memorial day. School will be officially closed on this day

## Impetigo

We have a number of cases of impetigo across our school. Impetigo is a common, superficial, highly contagious bacterial skin infection . It presents on the skin as weepy open sores that appear on the skin. These are contagious even once they have crusted over. Please keep your child home and treat as recommended. You will need to seek medical advice.
